Docket No. 98N-1265  
Food and Drug Administration APR 12 AM 10:39

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I am 65 y.o. The natural progesterone is a life (& marriage) saver for me. I was dragging around, unable to use the synthetic hormones as I became depressed & irritable commonly called PMS. The natural hormones help me to feel my "old self." Also the cream I buy by mail is so much better for my skin than what I can buy locally. I have very Dry skin that itches in the winter. Then, I have sore arms & legs from scratching. With the progesterone cream, my skin is soft & normal looking and most of all no itch! Please, Please do not limit my use of these hormones.

Are we no longer FREE enough to buy medicine

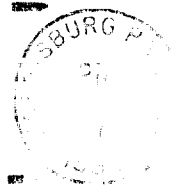

that we prefer!!

Please fold, seal, and mail by March 22
